SUMMARY

Full-stack engineer skilled in React, TypeScript, Python, SQL, and Flask. Experienced in building scalable apps, APIs, authentication flows, and CI/CD pipelines. **Strong collaborator** with cross-functional teams, community partners, and stakeholders. Known for delivering **user-centered, mission-driven solutions**.

TECHNICAL SKILLS

Frontend: React, TypeScript, Redux Toolkit, React Query, Auth0, Firebase, Responsive Design, Accessibility

Backend: Python, Flask, Node.js, REST APIs, SQLAlchemy, Postgres, MongoDB

Testing/DevOps: TDD, Unit Testing, React Testing Library, GitHub Actions, CI/CD, Cloud Deployment

Other: JavaScript, SQL, HTML/CSS, Git, Postman, Figma, Debugging, ERDs, Agile

EDUCATION

Coding Temple — Full-Stack Software Engineering (2026)

Hamline University — MS, Creative Writing (2022)

San Jose State University — MS, Information Science (2018)

Arizona State University — BS, Elementary Education (2010)

ENGINEERING EXPERIENCE

Full-Stack Software Engineer — Coding Temple
Feb–Mar 2026

Built and deployed **5 full-stack apps** using **React, TypeScript, Flask, and SQL**.

Developed RESTful APIs with **SQLAlchemy, Postgres, advanced queries, and token-based auth**.

Implemented CI/CD pipelines with GitHub Actions and deployed cloud-ready apps.

Applied TDD and wrote unit tests for backend logic and React components.

Integrated **Firebase** for real-time data and authentication.

Improved app performance by 30% through debugging and refactoring.

PROFESSIONAL EXPERIENCE

San Francisco Public Library —

Noe Valley Branch Manager Apr 2023 – Present

Led branch operations and collaborated with community partners, city agencies, and internal teams to deliver high-impact programs.

Designed digital literacy initiatives that expanded community access to technology.

Built strong relationships with patrons, staff, and neighborhood partners to foster an inclusive environment.

Secured staffing enhancements and coordinated with HR and supervisors to improve workflows.

SFUSD — Teacher Librarian Jun 2018 – Mar 2023

Collaborated with teachers, administrators, IT staff, and district leaders to integrate instructional technology.

Partnered with community organizations to expand digital resource access.

Migrated websites across 6 schools to a new Drupal platform, improving backend and frontend usability.

Delivered districtwide professional development on digital learning tools.
